Information

Effective date

July 29, 2005

Use

The Residential Deed to Secure Debt and Security Agreement – Georgia (Form 630323) may be used when taking a first, second, or other subordinate Deed to Secure Debt (DSD) on a single family residence, a duplex, or a condominium unit located in the state of Georgia.

Note: This form should **not** be used for:

- commercial real property or multi-family residences (other than a duplex),
- loans secured by apartment buildings,
- construction loans, or
- home equity lines of credit.

Instructions

The table below shows section names and descriptions for the items required in the Residential Deed to Secure Debt and Security Agreement – Georgia (Form 630323).

Section	Description			
Page 1	•			
Address (Heading implied)	CCSC address.			
County of	County in which the Residential Deed to Secure Debt and Security Agreement is being executed.			
as of	Date that the DSD is being executed.			
by and between	Names of all of the Owners of the real property. Notes: The name entered in this space is the name of the Owner exactly as the			
	 name is shown on the deed through which the Owner took title to the subject real property. If an attorney is preparing the documentation and closing the loan for the Bank, then it will be the responsibility of the attorney to ascertain the proper name to enter in this space. If the Loan officer is preparing the documentation and closing the loan, then it will be necessary for the Loan Officer to determine the proper name to enter in this space. The name of the Owner should be the exact name as shown on the title search or attorney's opinion relative to the subject real property. If for any reason a title search or attorney's opinion is not being obtained, then the name of the Owner should be the exact name that appears on the deed (usually a warranty deed) through which the Owner took title. 			
Page 2				
dated	Date of the secured promissory note.			
executed by	Name of each Borrower of the secured promissory note. Notes:			

Name should be exactly as it appears on the promissory note. If any maker of the promissory note is also an Owner of the real property covered by the DSD (and will therefore also be signing the DSD), then the name used on the promissory note should be the exact same name used on the DSD. If the obligation which is to be secured by the DSD is not a promissory note (such as a Guaranty or other contractual obligation to the Bank), consult a Bank attorney to discuss the proper description of the secured obligation. Original principal amount of the secured promissory note (written and numeric). Final maturity date Notes:					
If any maker of the promissory note is also an Owner of the real property covered by the DSD (and will therefore also be signing the DSD), then the name used on the promissory note should be the exact same name used on the DSD. If the obligation which is to be secured by the DSD is not a promissory note (such as a Guaranty or other contractual obligation to the Bank), consult a Bank attorney to discuss the proper description of the secured obligation. Original principal amount of the secured promissory note (written and numeric). Final maturity date Notes: If any part of the principal of the secured promissory note falls due in more than three (3) years, then it will be necessary to pay the intangible recording tax. Since the intangible recording tax is due only on the principal of the secured promissory note, it is necessary to separately state the principal of an add-on installment note because the face amount includes both principal and interest. In order to do so, insert the following statement in the space following the discussion of the secured promissory note: "The original amount of the Note includes both principal and interest. The proceeds of the Note (of principal amount actually received by the Obligor) is \$" Page 8 Signature of all Owners of the property. Note: The Owners should also execute the DSD on the signature line exactly as					
covered by the DSD (and will therefore also be signing the DSD), then the name used on the promissory note should be the exact same name used on the DSD. • If the obligation which is to be secured by the DSD is not a promissory note (such as a Guaranty or other contractual obligation to the Bank), consult a Bank attorney to discuss the proper description of the secured obligation. • Original principal amount of the secured promissory note (written and numeric). Final maturity date • If any part of the principal of the secured promissory note falls due in more than three (3) years, then it will be necessary to pay the intangible recording tax. • Since the intangible recording tax is due only on the principal of the secured promissory note, it is necessary to separately state the principal of an add-on installment note because the face amount includes both principal and interest. • In order to do so, insert the following statement in the space following the discussion of the secured promissory note: "The original amount of the Note includes both principal and interest.
