### Becomes Truist Electronic Lockbox

#### General information

For companies receiving consumer payments, Truist Electronic Lockbox makes posting payments from online banking channels more efficient and accurate by consolidating payments from multiple online bill payment processors into a single posting file.

Electronic Lockbox provides a robust, user-friendly browser to use for research, stops and swaps, and decisioning. Electronic Lockbox relieves your company from receiving numerous paper checks that could have been sent electronically through the consumer's online bill payment channel.

Truist consolidates from four major bill processors: Fiserv, FIS, MasterCard, and ACI.
